

A portrait of a woman with long, wavy blonde hair, smiling. She is wearing a light-colored blazer over a dark top and a pearl necklace. The background is a blurred indoor setting.

“ I had already lost 40% of my vision to glaucoma—  
an eye exam helped me  
keep the rest.”

-Hillary, patient advocate  
living with glaucoma

# Glaucoma can steal sight without warning.

Half of those with glaucoma don't know they have it until vision loss has already occurred. A dilated eye exam is the only way to catch it early and protect your sight.

**Don't wait.** Schedule an eye exam today.
